

Does Your Project Require IRB Approval?

Will you, a member of your research team or a collaborator observe, interact with, or intervene with living individuals to gather information that will be used for research? Examples:

- x Surveys, questionnaires, focus groups, interviews
- x Games, experiments, or tasks in physical or in electronic environments
- x Physical or biomedical procedures including imaging, scanning, blood collections, anthropomorphic measurement procedures, exercise
- x Diet or nutrition studies, taste tests
- x Studies examining effectiveness of educational strategies, teaching methods, curricula
- x Use of instruments, sensors, electronic devices, apps, software, or recording mechanisms (e.g., video, screen capture, key logging, etc.) to collect data or monitor or influence behavior
- x Passive observation of private behavior (in physical or online environments, including social media)
- x Studies examining individuals' responses to manipulation of their physical or online environment
- x Any other activity that involves observation of, or interaction with, individuals
